REMARKS

The figures of births and deaths shown in this statement for week ending the 7th December, 1957 relate to 129 towns with an estimated population of 17,634 thousands. Information about Andhra Pradesh, Assam, Bihar, Bombay, Madhya Pradesh, and West Bengal could not be included. The total number of towns is 319 and their population is 42,930 thousands. Thus 40% of the total number of towns representing 41% of the total population is covered in

this statement. The number of births and deaths recorded in these towns were 12,314 and 4,765 representing birth and death rates of 36.3 and 14.1 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population. The following table gives the position by States:—
